

RICHLAND ACADEMY OF THE ARTS

...where anyone can explore the artist within.

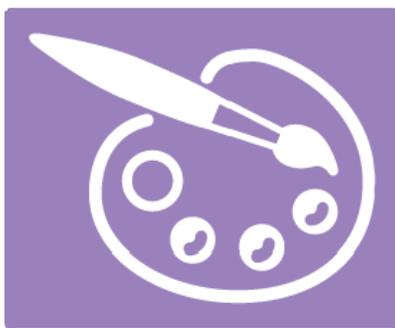

Whether you are a parent looking to enrich your child's experience in the arts, or an adult looking to engage in an arts community, our team at Richland Academy of the Arts strives to provide you with exciting opportunities. For over 25 years, we have nurtured local creative talent through an environment of safety, respect, learning, and imagination.

Lessons, Group Classes, and Performances in the Arts

By offering a variety of programming in various art forms we strive to accommodate the interests of all students. We are committed to providing creative programming that offers a variety of arts experiences and education for all ages. Our instructors are passionate about the students and strive to role model the professional arts experience. We operate a family friendly facility that provides a safe and professional environment from studio to stage. At Richland Academy we make it convenient by offering classes in dance, music, and visual arts all under one roof!

Art Lessons and Classes

Do you have a mini Monet? Or maybe you are just interested in learning something new. No matter what your skill level our programming will help you discover your inner artist.

- Art helps develop fine motor skills and increases visual-spatial skills and also provides an outlet for self-expression which is often therapeutic.
- It also helps to increase decision making, problem-solving, and critical-thinking skills.

Learning to create and appreciate visual aesthetics may be more important than ever to the development of children as they grow up. When kids are encouraged to express themselves and take risks in creating art, they develop a sense of innovation that will be important in their adult lives.

Art is not just beneficial to children. If you want to find more creativity, satisfaction, and happiness the single best solution we know is adding more art to your life!

Dance Classes and Lessons

It's never too late to benefit from dancing, and you don't have to be a prima ballerina to reap its rewards.

- Studies have shown that people who grow up dancing are happier, less stressed and smarter.
- Dance classes stimulate the mind and sharpen cognitive skills at every age.
- Dancing stimulates different brain activities at the same time, including emotional, rational, kinesthetic and musical.

Our faculty does much more than teach—they are dedicated to inspiring dancers through music, movement and many forms of dance. We provide an opportunity for students to not only learn terminology and technique, but also self-discipline, confidence, respect and an appreciation for dance as an art form. Our goal is to provide inspiration and education to our students in a healthy and nurturing environment.

Music Lessons and Classes

Do you have a budding vocalist? A rock star? A future pianist? Did you know that playing a musical instrument is very beneficial to children? So, why should your child participate in music lessons? For children, music provides many, many benefits and experts agree, there are a lot of good things about letting your child learn to play an instrument.

- Music boosts brain power by stimulating the parts of the brain that are related to reading, math, and emotional development.
- Not only will music give your child a mental advantage it will also help to improve their memory.

Music is not only beneficial for children but also has benefits for adults. Both music making and music listening have a positive effect on mental and physical health, social functioning, and helps overall mood! Music is a great way for adults to relax and unwind by helping to alleviate stress. Also, studies have shown that music increases antibodies that help build the body's immunity.

It's never too late to start your musical journey and there's no prior experience necessary!
